

# STRONGER HEALTH SYSTEMS. GREATER HEALTH IMPACT.

IN 2015, MSH'S PROJECTS  
REACHED MORE THAN  
**84.2M PEOPLE**  
WORLDWIDE

SINCE 2012, MSH HAS  
CONTRIBUTED TO  
SAVING MORE THAN  
**500,000 LIVES**

SINCE 2012, MSH HAS  
TRAINED MORE THAN  
**107,000 PEOPLE**

## ASIA

### AFGHANISTAN

Management Sciences for Health (MSH) mobilized **23,000 volunteer community health workers**, half of whom are women, and contributed to a **188% increase** in patients served at the US Agency for International Development (USAID)-funded health facilities.

### BANGLADESH

In four years, MSH's Systems for Improved Access to Pharmaceuticals and Services (SIAPS) Program **trained 11,858 health officials**, including 3,018 women, in pharmaceutical management and **saved more than \$6.38 million** of US government funding by averting unnecessary medicine procurements through improved forecasting. SIAPS also developed and installed an electronic tuberculosis (TB) patient management system at 210 sites that is now tracking **more than 110,000 TB patients**.

## CENTRAL AND EASTERN AFRICA

### DEMOCRATIC REPUBLIC OF THE CONGO

In four years, MSH has contributed to saving the lives of an estimated **150,000 children** under five, **averted almost 224,000 unintended pregnancies**, and increased the registration of medicines almost tenfold **from 200 to 1,999**.

### ETHIOPIA

MSH increased outpatient screening for TB from **10% to 98%** in three years, and has ensured that **DOTS services are provided in 94% of covered facilities to 5,170 patients**. MSH saved **177,184 lives** through antiretroviral therapy from 2008 to 2013.

### KENYA

MSH's Leadership Development Program enabled district health teams to **increase average coverage rates** for select health indicators **by 121%** from program baseline to endline, and **by 137%** from baseline to six months after the program's completion.

### TANZANIA

MSH helped establish **more than 9,200** accredited drug dispensing outlets, training and licensing **more than 13,000 dispensers**. **Women comprise over 90% of licensed dispensers** and almost **40% of outlet owners**.

### RWANDA

MSH's **24 years of support** have enabled Rwanda to enroll **more than 91%** of its citizens in **national community health insurance**.

### UGANDA

MSH's STRIDES for Family Health project has averted more than **16,300 infant deaths and 1,100 maternal deaths**, with a total health system cost savings of over **\$48,655,308**.

## LATIN AMERICA AND THE CARIBBEAN

### COLOMBIA

MSH increased the proportion of facilities with anti-malarial medications on hand in the Choco region from **56% to 100% in one year**.

### DOMINICAN REPUBLIC

MSH's SIAPS Program **identified and closed the \$3.8M financial gap** in funding for antiretroviral medicines in 2013.

### HAITI

For over five years, MSH ensured that nearly **300,000 mothers** received skilled health worker visits at home within the critical first 72 hours after childbirth, and **averted** an estimated **12,000 maternal deaths, 100,000 child deaths, and one million unintended pregnancies**.

## SOUTHERN AFRICA

### ANGOLA

In four years, MSH reached more than **75,000 pregnant women** with preventive malaria treatment.

### MADAGASCAR

In 2014, the MIKOLO project trained **4,246 community health volunteers** to ensure health service provision in remote communities.

### ZAMBIA

Under the ZPCT II project, MSH helped **3,357,907 people** receive HIV and AIDS counseling and testing.

### LESOTHO

MSH's Building Local Capacity for Delivery of HIV Services in Southern Africa (BLC) project served **92,381 orphans and vulnerable children**, comprising **73% of all OVC** in project-supported regions.

### MALAWI

In three years, MSH increased the number of sites providing prevention of mother-to-child transmission of HIV and AIDS services **from 99 to 518, increasing uptake** of these services **by 968%**.

### SOUTH AFRICA, BOTSWANA, NAMIBIA, LESOTHO, SWAZILAND, ANGOLA

In five years, MSH's BLC project provided **HIV counseling and testing services** to more than **76,000 people**.

## WEST AFRICA

### BENIN

In six months, MSH's supportive supervision program enabled **12 reference hospitals** to increase the proportion of **children evaluated** upon arrival **from 3% to 94%**; improve **adherence to emergency triage protocols from 13% to 81%**; and **decrease the case fatality rate** within 24 hours after admission **from 15% to 10%**.

### GUINEA

**MSH's introduction of a standardized monthly reporting system** increased facility stock status reporting rate **by 183% in one year**.

### MALI

MSH's SIAPS Program was the only US project that operated continuously through the 2012 coup d'etat, ensuring **no interruption in the supply of essential health commodities**.

### LIBERIA

In one year, MSH helped establish **120 accredited drug dispensing shops** and licensed and trained **358 dispensers**.

### NIGERIA

For over five years, MSH's PLAN-Health project's business development and **fundraising training to 21 civil social organizations** enabled them to submit **54 successful proposals** and **raise \$46 million in funding**.
