

MANAGEMENT SCIENCES FOR HEALTH

MANAGEMENT SCIENCES FOR HEALTH (MSH) is a global nonprofit advisory organization that provides governments, health organizations, and the private sector with the strategies, tools, and management support to effectively and efficiently deliver high-functioning health systems.

WHAT WE DO

We collaborate with all levels of the health system—from government ministries to frontline health workers—to address key global health challenges and achieve universal and equitable health services for all, helping people to ultimately take charge of their own development—and their own health.

Transforming Health Systems

Our systems thinking approach prioritizes robust primary health care, efficient data use, and a skilled workforce. A high-performing health system also requires an efficient supply chain system to ensure that quality, affordable medicines and other commodities are available when and where they're needed.

Systems Thinking for Health • Data, Health Information, and Measurement • Primary Health Care • Human Resources for Health • Leadership, Management, and Governance • Pharmaceutical and Supply Chain Management • Health Care Financing • Product and Health Technology Optimization

Taking the Bold Steps Necessary to Move toward UHC

Working with local and country-based partners, our programs are designed to help shape and implement policies to ensure that universal health coverage (UHC) policies and programs are inclusive and equitable. We do this with a focus on locally developed and led innovations and partnerships across sectors, including the private sector, and a focus on training to make data and other evidence-based decisions.

Policy and Advocacy • Innovative Partnerships • Private-Sector Engagement • Health System Innovations • UHC

Tackling the Biggest Global Health Challenges

From promoting the uptake of effective malaria treatments and prevention in Nigeria to working for better health outcomes for expectant mothers in Guatemala, we partner with communities to take on the toughest global health challenges to prevent the spread of disease and protect health workers, patients, and communities.

Tuberculosis • Malaria • HIV/AIDS • Noncommunicable Diseases • Infectious Diseases • Women's, Children's, and Adolescents' Health

OUR MISSION

We work shoulder-to-shoulder with countries and communities to save lives and improve the health of the world's poorest and most vulnerable people by building strong, resilient, sustainable health systems.

OUR VISION

A world where everyone has the opportunity for a healthy life.

WHERE WE WORK

Since our founding in 1971, MSH has improved health systems in more than **150 countries** worldwide.

We currently work in **47 countries**.

- Total Staff in 2022: **1,700+**
- Staff Outside US in 2022: **1,400+**

87% of MSH personnel in countries or regional offices are from the country or region where they work.

STATEMENT OF REVENUE AND HEALTH AREA FUNDING

Year ending June 30, 2021, drawn from financial statements

STATEMENT OF ACTIVITIES	(US \$ amounts rounded to 000s)
Grants & Program Revenue	\$140,166
Contributions	\$133
Investment & Other Income	\$209
TOTAL	\$140,508
Program Expense	\$120,773
Management & General	\$23,183
Fundraising	\$1
TOTAL	\$143,957
Revenue in Excess of Operating Expenses	(\$3,449)
Foreign Currency Adjustments	(\$179)
PPP forgiveness	\$4,916
NET CHANGE IN ASSETS	\$1,288

STATEMENT OF FINANCIAL POSITION	
Cash & Equivalents	\$24,653
Investments	\$18,514
Grants & Contracts Receivables	\$6,417
Unbilled Receivables	\$4,364
Other Receivables	\$627
Prepaid Expenses	\$6,447
Other Current Assets	\$0
Property & Equipment	\$321
TOTAL ASSETS	\$61,343
Liabilities	\$24,941
NET ASSETS	\$36,402

OUR COVID-19 IMPACT: 2020-2021

In the face of COVID-19, our program teams have been making critical contributions to end the global crisis: helping to get vaccines in people's arms, training health workers on infection prevention and control (IPC), and partnering with communities to combat misinformation.

16.7 MILLION+
VACCINATED

People vaccinated in the countries where we work as a direct result of MSH's support

22.37 MILLION+
REACHED

People reached through MSH-supported mass media and social media with COVID-19 risk communication and vaccine-related messaging

50,000+
TRAINED

Health care staff and volunteers trained on COVID-19 vaccine-related topics, including IPC and water, sanitation, and hygiene practices

9,000+
HEALTH FACILITIES

Health facilities supported with strategies to prevent or limit COVID-19 transmission in health care settings

SOURCES OF SUPPORT

MSH's sources of support include the US Agency for International Development (USAID); US Centers for Disease Control and Prevention (CDC); Bill & Melinda Gates Foundation; UK Foreign, Commonwealth and Development Office (FCDO); World Bank; World Health Organization (WHO); and many more organizations from government, multilateral institutions, and the private sector.
