The Organized Network of Services for Everyone’s Health (ONSE) Activity supported the Government of Malawi to improve maternal, newborn, and child health and well-being. The five-year USAID project worked across 16 of Malawi’s districts to bring major improvements in health through sustainable approaches and increased country ownership. A snapshot of key accomplishments across four intermediate result (IR) areas is below.

### CLINICAL SERVICES

**(IR1 + IR2)**

- **Maternal and Newborn Health**
  - 234K pregnant women initiating ANC visits in the first trimester, 55% of whom went on to receive 3 doses of IPTp, an 18% improvement from baseline.
  - 1,200,068 women received uterotonic during the life of the project. Approximately 1.5 times the number of women received uterotonic during labor in the later project years than at baseline.
- **Family Planning**
  - 2,766 village clinics supported by ONSE
  - 11.7M Malawians live in ONSE districts with 86% rurally located
- **WASH**
  - 2M people received care through outreach

### HEALTH SYSTEMS STRENGTHENING

**(IR3)**

- **Governance**
  - 139 district-implementation plans supported
  - 380 facilities were reporting into the LMIS
  - 60% of facilities were reporting into the HMIS standards up from 47% at the start of the project
- **Supervision**
  - 6 prefabricated FP clinics constructed in Chitipa, Nkhotakota, Dowa, Lilongwe, Mulanje, and Chikwawa
  - CYP generated in 11 ONSE districts
- **Information Systems**
  - 30% of community health action groups are functional (increase of functional CHAGs by 300% from baseline)

### COMMUNITY MOBILIZATION AND ENGAGEMENT

**(IR4)**

- **Community Scorecard (CSC)** methodology
  - 613,000 people vaccinated against COVID-19 with support from ONSE, which is about 57% of all vaccines administered during the year across the country
  - 73,858 health workers trained to administer COVID-19 vaccinations
  - 1,000 relevant calls received through CCPF in ONSE districts alone; CCPF is a health center by phone hotline adopted by the Ministry of Health in 2020

### DISTRICTS ACTIVELY SUPPORTED BY ONSE

2016–2022

TOGETHER FOR EVERYONE’S HEALTH
