

WORKING WITH

MANAGEMENT SCIENCES FOR HEALTH is a global nonprofit organization that provides governments, health organizations, and the private sector with the strategies, tools, and management support they need to effectively and efficiently deliver high-functioning health systems. For more than 50 years, MSH has consistently fostered innovation, delivered technical and implementation excellence, and driven sustained results in more than 150 countries through our leadership of global, regional, and bilateral programs.

US Government Mechanisms

MSH's seasoned technical and program teams apply disciplined Systems Thinking for Health, proven implementation processes, and ISO 9001-certified quality management to expertly design, execute, and monitor programs that meet the objectives and exceed the expectations of donors, clients, and partners. A trusted US Government partner, MSH offers expertise to USAID and its country partners through several acquisition and assistance mechanisms and through the GSA Schedule.

USAID NextGen Comprehensive Technical Assistance for Health Supply Chain and Pharmaceutical Management (CompTA) Program

- Global IDIQ (indefinite delivery, indefinite quantity) contract, allowing for a variety of task order contract types
- Term: 2024–2034 • Ceiling: \$2.2B
- MSH Role: Prime contractor (1 of 5 unrestricted IDIQ holders)
- Contact: Stephanie Armand Xueref, IDIQ Primary Point of Contact, smxueref@msh.org

Through CompTA—a key element of USAID's \$9B NextGen Global Health Supply Chain Suite of Programs—MSH is positioned to support countries in **sustainably, holistically strengthening their pharmaceutical systems** by building **better-performing supply chains** that draw on the capabilities and resources of public and private sectors; providing operational and technical support to **increase access to health commodities**; and **improving pharmaceutical services, management systems, and regulatory capacities** to ensure achievement of health impact. USAID is expected to issue one or more global task orders as buy-in mechanisms through which Missions may design activities to meet specific country needs. Missions may also develop bilateral task orders for competition among the IDIQ holders.

USAID Medicines, Technologies, and Pharmaceutical Services (MTaPS) Program

- Global cost-plus-fixed-fee term-type contract
- Term: 2018–2024 • Ceiling: \$209M
- MSH Role: Prime contractor
- Contact: Francis Aboagye-Nyame, Project Director, fnyame@mtapsprogram.org

MTaPS helps countries ensure access to safe, effective, and affordable medicines through improved pharmaceutical sector **governance** and **decision making**; stronger **management and regulatory capacities**; better **resource mobilization and use**; and improved **pharmaceutical services**.

MSH'S CORE CAPABILITIES

MSH strengthens health systems by building sustainable capacities in:

- Pharmaceutical management and regulatory systems
- Public- and private-sector supply chains
- Optimization of health products and technologies
- Health care financing
- Institutional governance, management, and leadership
- Management and use of health data
- Advocacy and policy development

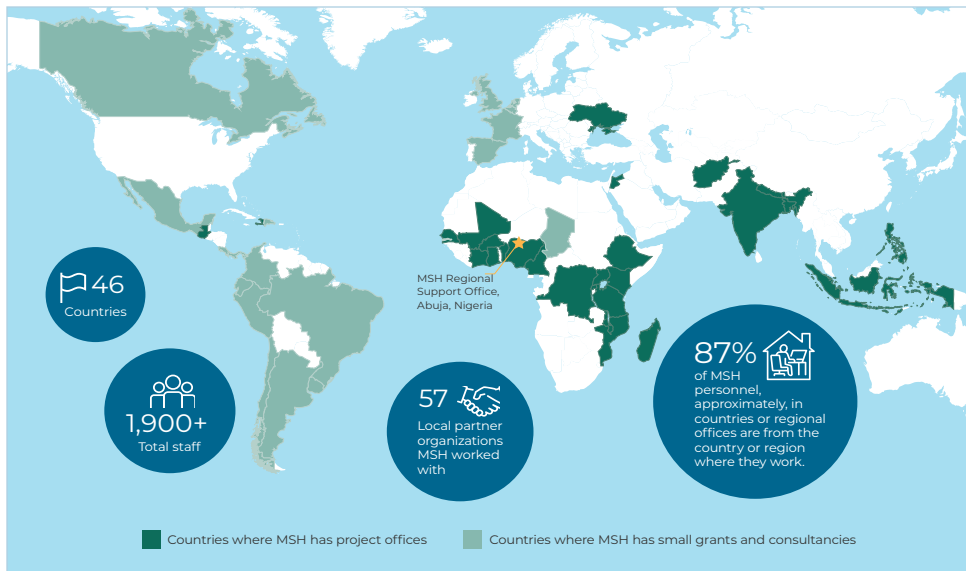

MSH helps countries address their most pressing health challenges, including:

- Universal health coverage
- Infectious diseases, including TB, HIV and AIDS, and malaria
- Women's, children's, and adolescents' health
- Noncommunicable diseases
- Pandemic preparedness and response

MSH builds an enabling environment by:

- Supporting locally led development
- Engaging communities, civil society, and the private sector
- Fostering innovation
- Building a culture of collaborating, learning, and adapting
- Committing to diversity, equity, and inclusion

To learn more about partnering with MSH, please contact **Olumide Elegbe**, Director of Partnerships, at oelegbe@msh.org, or our team at partnerwithus@msh.org.

USAID Central America Regional Support Services (CARSS)

- Regional IDIQ contract
- Term: 2023–2028 • Ceiling: \$800M
- MSH Role: Lead subpartner for health (with Nathan Associates, a Cadmus Company, as prime recipient)
- Contact: Katie Henke, Director of Business Development (Nathan Associates), Katie.Henke@cadmusgroup.com

Task orders under CARSS will provide flexible, streamlined, and integrated services to support USAID Regional and Bilateral Missions in Latin America and the Caribbean, particularly in Mexico and Central American countries, in addressing issues affecting the root causes of irregular migration to the US. Through this mechanism, MSH can address a range of health and health security issues, including **pandemic preparedness and response; health system resilience; water, sanitation, and hygiene (WASH);** and **local capacity strengthening.**

PEPFAR/USAID Reaching Impact, Saturation and Epidemic Control (RISE)

- Global cooperative agreement
- Term: 2019–2025 • Ceiling: \$391M
- MSH Role: Lead subpartner for health systems strengthening (with Jhpiego as prime recipient)
- Contact: Kelly Curran (Jhpiego), Project Director, kelly.curran@jhpigo.org

Under RISE, MSH helps countries address critical HIV and COVID-19 priorities and meet the demands of global health security by strengthening key health systems functions, including **health information systems, human resources for health, financial systems, and supply chains.**

CDC Building Capacity for National Public Health Institutes (NPHIs)

- Global cooperative agreement
- Term: 2020–2025 • Ceiling: \$3M
- MSH Role: Prime recipient
- Contact: Rudi Thetard, Project Director, rthetard@msh.org

This program builds the capacities and resources of NPHIs to collaborate across governments, the private sector, and civil society to coordinate **lab systems and disease-specific control programs, health research, health workforce development, and national responses to COVID-19 and other health emergencies.**

USAID Health Systems for Tuberculosis (HS4TB)

- Task Order 2 under USAID Integrated Health Systems IDIQ
- Global cost-plus-fixed-fee term-type task order contract
- Term: 2020–2025 • Ceiling: \$70M
- MSH Role: Prime contractor
- Contact: Kamiar Khajavi, Project Director, kkhajavi@msh.org

HS4TB works to transform the way leaders and managers understand and work toward tuberculosis control and elimination, helping countries increase **domestic financing, use resources more efficiently, build local technical and managerial competence and leadership, support policy formation and dissemination, prepare local organizations** to transition into the role of primary technical assistance providers and recipients of direct donor support, and **support public contracting with private-sector providers.**

GSA Schedule

IDIQ Contract #: 47QRAA21D0069

Base term: 2021–2026

All MSH capabilities are available through the **General Services Administration's Multiple Award Schedule** for work of any size and scope with simplified contracting and flexible pricing, with ceilings already deemed fair and reasonable by the GSA. Services available:

- SIN 541990TAD: Scientific Management and Solutions/Scientific Services, including *Technical/Application Development Support (TADS)*
- SIN 541611: Professional/Business Administrative Services, including *Management and Financial Consulting, Acquisition and Grants Management Support, and Business Program and Project Management Services*
